REQUEST FOR QUOTE

Transportation, Installation, design and transformation of three (3) 40-Foot Containers for Maroua – Cameroon

Okapi Consulting seeks proposals from qualified service providers to deliver Transportation, Installation, design and transformation of three 40-Foot Containers into a Fully Functional Radio Station with Two Soundproof Studios and a Control Room (container 1), and two open plan office spaces (containers 2 & 3).

Radio Ndarason Internationale plays a pivotal role in promoting peace and stability in the Lake Chad region, aligning with the African Union's mandate. RNI's programming, broadcast in the Kanuri, Kanembu, and Buduma languages, targets areas impacted by the Boko Haram insurgency. With over 7.5 million regular listeners on Shortwave and FM, RNI remains a beacon of hope and a source of vital information for communities in the region. As a critical information source for millions of listeners in the region, RNI has earned its reputation through the unwavering quality, reliability, and integrity of its broadcasts.

Interested suppliers are requested to submit detailed quotes for three (3) 40-Foot Containers, along with information and/or documented proof as to how the potential supplier adheres and will be able to reach each of the evaluation criteria as well as the other specifications pertained in the Terms of Reference (TOR)

This tender closes on 15th December 2023.
